Litigants who order realtime services, and subsequently order an original certified transcript of the same proceeding, will not receive a credit toward the purchase cost of the certified transcript. A litigant who orders a copy of a realtime unedited transcript will be required to purchase a certified copy of the same pages of realtime unedited copies at the regular copy rates (ordinary, 14-day, expedited, daily, or hourly). Transcript in CJA Cases

In multi-defendant cases involving CJA defendants, no more than one transcript should be purchased from the court reporter on behalf of CJA defendants. One of the appointed counsel or the clerk of court should arrange for the duplication, at commercially competitive rates, of enough copies of the transcript for each of the CJA defendants for whom a transcript has been approved. The cost of such duplication will be charged to the CJA appropriation. This policy would not preclude the furnishing of duplication services by the court reporter at the commercially competitive rate.

DATED this 24th day of October, 2007, at Syracuse, New York.

 Norman A. Mordue
 Chief United States District Court Judge

As adopted in March 1996, it is the policy of the Judicial Conference that effective June 1, 1996, a new category of “realtime unedited transcript” has been established. Realtime unedited transcript is defined as “a draft transcript produced by a Certified Realtime Reporter (CRR) as a byproduct of realtime to be delivered electronically during the

proceedings or immediately following adjournment.” Realtime includes the following services:

~ The instantaneous translation of the proceedings on a computer monitor.

~ The opportunity to scroll forward and backward, search the record for key words or phrases and mark portions of the text using viewer/annotation software.

~ The realtime unedited transcript on diskette delivered during the proceedings or at the end of the day.

A realtime unedited transcript must be clearly marked as such with a header or footer which appears at the top or bottom of each page of transcript stating, “Realtime Unedited Transcript Only.” The realtime unedited transcript should not include an appearance page, an index, or a certification. Realtime unedited transcript sold on computer diskette may be in ASCII format, or any other format requested by the ordering party and agreed to by the court reporter. It should include any notations made to the electronic file by the ordering party during the proceedings. Diskettes may not contain any protection or programming codes that would prevent copying or transferring the data.

All parties requesting realtime services shall be responsible for providing their own personal computers, viewer/annotation software, and monitors. Upon the request of the parties, reporters may make equipment and software available at no additional charge. The Court Reporter shall provide wiring and data communications connections needed to provide realtime services to these persons. Parties should coordinate and pre-test their equipment with the Court Reporter before official proceedings begin.

A Court Reporter providing realtime unedited transcript should offer comparable services to all parties to the proceeding. The primary purpose of realtime unedited transcript is to provide access to a draft transcript of the proceedings on diskette at the end of each day. It is not intended to be used in subsequent proceedings for impeachment or for any other purpose, including further distribution.

It should be noted that when realtime unedited transcript is provided, there may be two versions of the transcript for one proceeding—unofficial and official. The realtime unedited transcript may contain errors, some of which could change the accuracy or meaning of the testimony. A realtime unedited transcript will not satisfy the requirement for the reporter to provide or file a certified transcript with the district court clerk or as the record on appeal.
