

Project Overview Statement - Appendix B

Project Name: SYR 12th FL NAM VEPS

Project Manager(s): Teresa Lasell

Department: Information Technology

Author: Teresa Lasell

Project

Project

Provide video input from the CRD location on the bench. Provide the ability to integrate VTC. Provide ability for Xpanel and Crestron Fusion. Ability to turn the VEPS off while still allowing the Audio portion to be controlled. Integration of VGADVI broadcaster for video/audio to chambers(CFE).

Project Hardware list

VEPS	Make	Model	Qty		
System Rack Media Switcher	Crestron	DM-MD 16X16	1		
Video Distribution Amplifiers	Extron	P/2 DA6xi			
Video Distribution Amplifiers	Extron	DA4RGBHV			
Document Camera	Lumens	PS670			
VCR/DVD unit					
Large display min 50"			1		
Video Displays(22")	NEC	E224WI-BK			
Video Processors	Crestron	DVPHD	1		
Touchscreen	Planar	XL2240MW	2		
	Equipment Subtotal				
Misc Equip & Wiring					
VEPS System Labor
